Poly-Lite PL Series Bag Filter

Economical and user-friendly bag filter system for Light Duty industrial applications

The Trimline Poly-Lite Bag Filter offers an economical and user-friendly solution to many liquid filtration applications with favourable operating cost benefits.

PL housings are constructed from high impact polypropylene to be compatible with a wide range of fluids and its ergonomic screw down lid is designed for simple hand operation allowing for a quick filter changeover.

Please contact us for information on filter housings and vessels suitable for heavy duty applications.
